

Andrew Bartzis interviewed by David Waterfall, June 23 2013, part 15 of 20

DW: [0:38] Welcome back. This is episode fifteen.

AB: [0:42] Fifteen.

DW: [0:43] Uh, with the Galactic Historian, Andrew Bartzis. What a great last name.

AB: [0:43] Thank you. (laughs) It's Greek.

DW: [0:49] It's Greek.

AB: [0:50] 100% Greek.

DW: [0:51] 100% Greek.

AB: [0:52] Yup. Dad from Corinth, Mother from Patras.

DW: [0:55] Do you speak Greek?

AB: [0:57] No. That wasn't a primary thing in my family, at that point in time, doing the Greek classes. Though I was an altar boy, for Saint Constantine and Helen, in Cleveland Ohio.

DW: [1:09] So, you were raised here, but your parents came from Greece?

AB: [1:12] They were both born in Greece during the war, correct.

DW: [1:14] So they're fluent in...

AB: [1:15] English, and Greek, yes.

DW: [1:17] ...and Greek, both. You can't channel that from the akashic record?

AB: [1:20] Um... I can't translate it. It's different. Human 3-d languages are so different. They're designed to limit. Even the Greek language is designed to limit. Though the ancient Greek isn't, because it has so many other symbologies behind it... but many of those teachings have been lost, so the record doesn't truly give the inspiration to speak unless you've had a past life with it. I've had other past lives in Greek... the languages that I function with, are more on a soul level or a galactic level.

DW: [1:55] Mm... so you don't speak in tongues?

AB: [1:57] Well, I mean, that's one person's definition of it, but you've heard me speak many times, so...

DW: [2:03] Is that soul language?

AB: [2:05] It could be a species-identified language, but I'm speaking it, and my throat chakra's able to telepathically translate it, so it's auditory.

DW: [2:15] So if I asked you to identify... this (picks up crystal), what would it be in that language?

AB: [2:21] <<chee-yo-tee kata-taa wuu-paa nikaa chi-gu-naa hi-kaa, (pointing to crystal point outcroppings) pa-taa pu-ka-ni-na-che-woh-te-ke-ul-ushne-he-ika (hand flourishing away from crystal structure, fingers coming together as they rise) ma-haka, pu.>>

DW: [2:35] ...and in English, that would be what?

AB: [2:37] This stone is a dream-stone, and it has an energy field, and I was counting the different numbers, and then describing the certain points create a bigger energy field.

DW: [2:47] Dream-stone... what is that?

AB: [2:48] This particular stone, look at it- we got it here, in Mt Shasta. It is a dream-stone, it is a crystal that came from a meteorite, and these crystals grew inside the meteorite under pressure and when the meteor crashed here, it left giant rock samples, and these survived the crash.

[3:07] Or they're seeded here from another world, into deep under the ground, which is frequent- we get people seeding crystalline structures in the ground, encased in a local bubble of reality that is the old planet that it came from, so other things like that can be naturally manufactured.

DW: [3:26] So, you talk quite a bit about dream-times in our past episodes. This crystal then brings a resonance that allows people to maintain... dream access?

AB: [3:37] It aids dream access because of the points (picks it up again)... This creates an omni-

directional field.

DW: [3:49] Not just one, but the way they all work together?

AB: [3:51] ...create an omni-directional field.

DW: [3:52] As a community, they...

AB: [3:53] Correct, and then each individual has an omni-directional field, that ultimately determines how big and how wide the other is, so if I touch this crystal I change the omni-directional field... if I touch this one, or I go like this (touches many) I change the omni-directional field. If you were to put this on your heart and try to go to sleep, the omni-directional field of your heart is changed by the omni-directional field of this. Okay, and ... on a dream level... how do I put this... your intentions take you to the dream source you're doing, this has the out-of-world experience, separate of the matrix... so it makes it very easy, or a simpler process to tune into the Earth consciousness of dream. Because that's where we dream, in Earth consciousness.

DW: [4:43] So, we were going to talk about discernment, this episode, but you have brought up a really interesting question, and that is, what's the difference between dream-time or dream reality, and the astral planes?

AB: [4:56] Big difference. Very, very big difference. In the astral planes, you have a lot more negativity that can exist there. In the dream-time realms, that are ancestral realms, there is no negativity. They're there out of true love. The astral cities have boundaries in them, that allow true love to exist there, and then there are wild zones around it, where there are no rules. When you set up something in the astral world as a function, like the astral or etheric satellite grids, they (are) physically unseen, but they are on the spiritual side, and they have a local reality bubble around them that keeps them protected, and then there's blank spaces of no protection, so entities can free-roam there. Think of that as the most outer outer outer layer of Earth's magnetic sphere, and then the astral layer is that first... twenty miles of it. So whatever can exist within the space between atoms, is in the astral world there.

DW: [6:01] So it's like the wild west?

AB: [6:02] Yes.

DW: [6:03] ...in the astral planes?

AB: [6:04] Correct.

DW: [6:04] ...whereas, the dream realities...?

AB: [6:06] Very focused, very loving, and part of Earth sentience.

DW: [6:10] So, if I had a... you talked about having soul groups... or actually sort of dream realities related to a planet, or to groups, or both?

AB: [6:20] Groups who create places inside a planet's field of energy that's dedicated for dream-time.

DW: [6:29] So it's another creative space.

AB: [6:31] Yes.

DW: [6:32] ...that a soul group would create, that they could decide the rules with?

AB: [6:35] Correct.

DW: [6:36] Could they be... horrific places? ...with a soul group that had "fallen" or was very dark?

AB: [6:43] Um, that's a really good question. In the old days, there were negative places in the dream realm that served a purpose for dealing with the destructions of local realities, because it was easy to snatch someone in a local reality you were about to conquer and bring them into this horrible realm and torture and abuse them there, and then not have to get the karma for it. So, many of those were taken out in... about the 600 A.D. mark, where ... trillions of dream-time warriors just ascended onto Earth's astral realm and dreamtime realm and just basically got out the weed wacker and started clearing out the paths and put the lights up.

DW: [7:30] Okay, so now are all dream realities, as a rule they have to be in love and light?

AB: [7:36] No, not all love and light, some are education realms so the rules are different, and you have to go through the experience, even though the experience isn't ultimately going to harm you.

DW: [7:45] Like a school of hard knocks.

AB: [7:46] Correct.

DW: [7:49] And so, are these dream realities something that I create, or ones that I am given?

AB: [7:56] Well, in the ancestral realms your ancestors were the original consciousness explorers and they are the ones that set up the original space, even though they may not be living on Earth and their other pieces-parts might be completely somewhere else... they set up the space and Earth holds the space for that DNA lineage. Your DNA gives you the key to the door to get in.

DW: [8:18] ...unique to this body? or to my expression, my soul?

AB: [8:21] Your soul family and ancestors of soul family, so anybody that's been in a DNA lineage of your soul family- soul families may change six lineages... twelve... 22, but all of that number would be access to their ancestral realm... in dream-time.

DW: [8:41] ...in dream-time.

AB: [8:42] Correct.

DW: [8:42] So my soul lineage... and that would be all lives that were lived by avatars of my soul and and group of souls "soul family"?

AB: [8:53] Correct.

DW: [8:54] And how many are in a soul family?

AB: [8:56] It greatly differs. You can have a soul family of two until they decide to have a lineage.

DW: [9:03] Does it always start with one?

AB: [9:04] Mmm, no, it always starts with two. You have to have an elder. Those are the elders.

DW: [9:07] Does that have to do with the twin flame?

AB: [9:10] The twin flame has been mistaken- I actually we talked about that with Lance, too. The love and light community has really mistaken its actual purpose.

DW: [9:21] It's not a split of a soul when a...

AB: [9:23] No. It's misunderstood. A soul can split itself in two, incarnate on a planet, and then come together, and have a child, and then that child creates the soul lineage with the two parts of itself as the elder. This is where the love and light industry made their mistake. That's your twin flame, yes, and it's a male and female, but that's not what the vast majorities of soul families are made of. That's extremely rare that some entity breeds with itself to bring another piece out like that. That's something that the cabal does through forced incarnation, okay? On the other side, when two souls get together saying "I'm ending all soul contracts with other soul families, and I'm starting my very own", all of those other contracts are ended, and then those two come together and create a contract to make a soul family with a theme.

DW: [10:22] Like a partnership?

AB: [10:23] Like a partnership, yep, and they're the elders there, the starting elders of that, and whoever they allow to incarnate into that soul family through whatever DNA lineages they choose, are a part of that theme, that creates lineage, that creates history, that creates an impact into reality.

DW: [10:42] So it's kind of like forming a company. Some are not-for-profit, some are for-profit?

AB: [10:47] Yep, it can be broken down that way.

DW: [10:48] ...and the multi-dimensional beings are more of the for-profit?

AB: [10:51] Correct.

DW: [10:52] ...whereas most others are not-for-profit?

AB: [10:54] Right, service for others.

DW: [10:55] Service for others. So what's the range of soul group sizes, that are here on Earth?

AB: [11:02] Um, a lot of them have been broken down into groups of 8, 12, 16... there are quite a few out there with several hundred, and then those few out there with thousands.

DW: [11:14] Is that (an) old group when you say thousand?

AB: [11:16] Not necessarily old, you could have a lucky young soul that just got into the soul family because there was an issue, and they have it, and then in other situations, they could be very very very old and have virtually nothing.

DW: [11:32] This is a fascinating concept, so it's like a club...?

AB: [11:35] Yup.

DW: [11:36] ...and the club may recruit new members?

AB: [11:38] Mm-hm.

DW: [11:39] ...if they need to... so a free agent so to speak, or if there's one or two and they decide they want to join with the other club, the soul group, and the soul group grows based on- how do they grow? ...by recruiting other members?

AB: [11:52] Expansion of consciousness within the theme.

DW: [11:54] Is that the monad/dyad?

AB: [11:56] It would be like the monad, yes, if you're the "Seven Ray" readers, the first three, yes. Ray 1, ray 2, (and) ray 3.

DW: [12:02] So the soul then is splitting into multiple aspects of itself?

AB: [12:06] Correct.

DW: [12:07] Okay so that... when you have an 8, that's 8 different versions- or let's say, one divided into 8, so they have 8 times the ability to experience and grow?

AB: [12:17] Correct.

DW: [12:18] And so splitting into 8, 13... really is not important because theoretically the one could do the same work?

AB: [12:24] Correct.

DW: [12:25] But having more avatars, well I'm just making up, so as you have more souls, then theoretically you could have more avatars?

AB: [12:33] Correct... avatars within your soul family lineage that serve purpose to the lineage, like those that hold spiritual courts of equity, where lets say the two elders are gonna go out on a consciousness exploration adventure, and gonna be gone 10,000 years... you would set up many people within the soul family would set up multiple aspects to be an oversoul seer, and one that can read the contracts from the very beginning of the theme, and use the Earth sentience as the ultimate equity to determine if the theme has been broken, or if the particular situation of contract removal is valid or has been ... written with scams behind it.

DW: [13:22] So if I'm tracking this, a couple members of a soul group go out on a journey, and they're not gonna come back for some time, and they're measured on their success based on these contracts they've agreed to, and those contracts are with the soul group or with God? or who are the contracts with?

AB: [13:43] The soul family.

DW: [13:45] Oh so they're saying if you go out and achieve your mission, your hero's journey so to speak, and you come back then you'll receive...?

AB: [13:55] ...more energy from the whole.

DW: [13:58] ...and who's the whole?

AB: [13:59] The whole soul family that's expanding through their highest consciousness... um, it also applies when the whole soul family's on Earth, at times only one or two members of the soul family can fully access their higher consciousness, and then they can share that experience with the others (in the) soul family. And in the situation that we're in, the system of domination-and-control totally separated us on the soul family level so we don't have that completion, so when soul families come together there's this rapid raise of consciousness, because you're all fully sharing at that moment, even though you're subconsciously doing it, and as soul family grows apart, one may be high consciousness and can just share that with the others, or if you have two doing it you share with others the whole grows brighter and brighter and brighter.

DW: [14:49] And so, this concept of the soul family with a soul becoming more wealthy, I like that term you used I think walk-in energy, very wealthy souls I never thought of that but really, energy is...?

AB: [14:59] ...is wealth.

DW: [15:00] ...is wealth... and everything that you look around here is related to the sun.

AB: [15:04] Correct.

DW: [15:04] It's been converted into something that we use to measure in terms of value, but energy allows you to do more things in the universe... and experience and grow as well.

AB: [15:14] Mm-hm.

DW: [15:15] So how do you become more wealthy in the universe?

AB: [15:19] Knowledge... experience.

DW: [15:21] So knowledge is wealth?

AB: [15:23] Knowledge is... currency... experience is wealth.

DW: [15:30] So there's no substitute for swinging the axe?

AB: [15:33] Correct.

DW: [15:33] You can't hire someone to do that for you.

AB: [15:36] Nope.

DW: [15:37] So these multi-dimensional beings that you've talked about... they've earned their wealth?

AB: [15:42] Absolutely.

DW: [15:43] And with that they probably, like very smart people here on Earth, believe that they're probably better than most, and they can probably do things and therefore they have more rights?

AB: [15:54] Correct.

DW: [15:55] And they will take your rights away because you're not as smart as them.

AB: [15:58] Correct... And you have no way to comprehend how deep their game goes.

DW: [16:02] Because they're so brilliant that you don't even realize what's going on.

AB: [16:06] Right.

DW: [16:07] But thankfully, as you've shared, there are some referees, and the Prime Creator wants to maintain the balance, and so when they start breaking the rules and the Prime Creator is aware of it...

AB: [16:18] Mm-hm... they get ejected from the game.

DW: [16:20] They get ejected- time out, and then potentially recycled (AB nods) Right.

AB: [16:25] Or walk-ins-taken-over.

DW: [16:28] But the multi-dimensional being, how would they have a walk-in? I mean their consciousness... how does that work?

AB: [16:34] That's the crazy part (both laugh) When you make a sovereign free will version of yourself, there are limitations to your over-mind consciousness. So you can put a walk-in in, who's a psychic, who can understand... well... back it up a second...

[16:52] The multi-dimensional beings have other species that are a part of the defense and quarantine here, that use high-powered computers- the highest artificial intelligence of one vessel which would be enough to predict... it's indescribable how powerful that artificial intelligence (is)... it would take 20 of the best, capital Pleiadian intelligences to understand one multi-dimensional being as a bar graph, to create the data.

DW: [17:27] That's a lot of smarts.

AB: [17:27] That's how much it is. When we try to look at them... they're not even a being. The walk-in can come in, and hold all the contracts, and basically he's just covering all the bases of what the being looks like, looks for on his check list...

DW: [17:50] So these avatars aren't gonna operate from this multi-dimensional being's direction, so to speak?

AB: [17:56] Right.

DW: [17:57] So as much as they wanna go left, it goes right.

AB: [18:00] Correct.

DW: [18:01] And so, if they try (to go) in this direction and they're getting pushed this direction, and so once things are out of harm's way, then they're free to roam, so to speak.

AB: [18:09] ...or roam back again.

DW: [18:10] And so, the question I think you asked before is, does service to self qualify for extraordinary abilities? Granted, you broke the rules but it's kind of like Star Trek with Captain Kirk... he changed the rules.

AB: [18:25] Yeah, in the Kobayashi Maru (test)... you change the rules. He still won.

DW: [18:29] Right, he changed the rules.

AB: [18:30] He still won. Bu there was nothing that said that you can't break the rules.

DW: [18:34] So it's somewhat of a metaphor for the multi-dimensional being.

AB: [18:37] Exactly.

DW: [18:37] Kind of a paradox.

AB: [18:39] We're in a free-willed universe... so rules are meant to be broken in a free-willed universe.

DW: [18:43] Or no one told you they could be broken.

AB: [18:45] Until you used your free will to break them.

DW: [18:47] Or you asked, "can I break the rules".

AB: [18:49] Yep. Exactly.

DW: [18:50] If not said then... interesting... so back to the soul group... and you talked about them being one, two, but generally in multiples of doubles?

AB: [19:01] No, they can... you can have souls that would leave it and give it odd numbers, so there's no individual math that's for soul family. Though some groups use threes, nines... but that's the theme that they go (by), they come in pods.

DW: [19:18] I think I've heard of group of nine channeling from the group of nine.

AB: [19:21] Yep.

DW: [19:22] One soul.

AB: [19:22] And that would be a soul group, that would be a telepathic communication group that's using... psychic technology to maintain a stream contact with an individual. I do group communications like that, I just don't present it in that type of format.

DW: [19:40] Mm-hm... so you talked about earlier that what we're trying to do is bring the soul families back together, and that when they came into the incarnation grid they were divided up.

AB: [19:51] Correct.

DW: [19:51] Basically so that they wouldn't become a cohesive powerful group, and that as a result they've been blocked, or as a result they haven't been able to really move forward and then they've also been blocked as a group from graduating.

AB: [20:05] Correct.

DW: [20:06] ...and becoming... moving off and then using that energy and wisdom to go do more things.

AB: [20:11] Correct.

DW: [20:12] Have we become more powerful, even though we've been stuck here gathered more knowledge and wisdom? or are we been stunted?

AB: [20:18] I'll use a metaphor... a baseball metaphor... you have a bullpen and that's all your pitchers, and if you know you're going to be going against two left-handed batters, and you've got two pitchers that can throw okay to left-handed batters, you pull those guys out, instead of the ones that can't pitch... so, the metaphor...

DW: [20:45] So we're not stunted, just we learn something different.

AB: [20:49] Right.

DW: [20:50] So ultimately everyone that's in the incarnation grid, this is a very unique experience.

AB: [20:53] Yes.

DW: [20:54] And so that in itself has a wisdom that's...

AB: [20:57] ...un-comparable, unless you're in it.

DW: [20:59] ... of the whole creation, so you could argue that wisdom is quite valuable.

AB: [21:04] Correct.

DW: [21:05] Even though we've been grumpy about it.

AB: [21:06] Yeah- there are others that look at us as lotto winners.

DW: [21:09] ...like we got to be in the most ultimate game.

AB: [21:12] Mm-hm.

DW: [21:13] ...and that we didn't expect it, but we won the lottery, right? ...in terms of wealth?

AB: [21:16] Won the lotto, yup, in terms of soul level.

DW: [21:20] So, earlier you also talked about, that we're bringing these soul families together and what you're trying to do, and creating events... How do soul families come together?

AB: [21:31] They naturally come together... I mean, when you make contracts... let's say if there were no system of domination-and-control in the disunity world we have right now (for conversation's sake, it got turned off, soul family would just naturally migrate to each other. It's just natural. That's the way we're meant to be on this world. like you have a vine that's got grapes on it and each has got a bunch of grapes they all naturally (grow in a cluster), and you have a separate vine and a separate (vine) and a separate (vine) and they all line up to the positive (direction) they're supposed to be in.

DW: [22:08] So everything's connected.

AB: [22:09] Yes ...through the sentience of Earth, through your dream-time, and that's how you all just know where to go.

DW: [22:15] ...so you don't get steered off-path.

AB: [22:17] Correct.

DW: [22:18] So, theoretically if you're a soul group of 8 and you have 8 avatars, you would get 8 avatars on Earth, incarnate?

AB: [22:27] Most people come with one avatar on Earth, and several dozen pieces-parts, off-world and maybe a few avatars off-world. But there's always a central avatar. And the central avatar at times can divide all its sentience equally among all sovereign pieces... or sovereign avatars, and when he or she does that he or she becomes a hive-mind, and can have... even more pieces-parts, with contracts, feeding the hive mind, which is feeding the all, as the higher self.

DW: [23:08] But here on Earth, if... I was part of the group of 8 for example, then I would assume that there are 8 incarnated humans, here... on this planet?

AB: [23:20] Mm-hm.

DW: [23:21] ...and that the goal in this particular existence would be for us to physically know each other? ...come in contact?

AB: [23:28] They have contract resolution between you... first-grade teacher, first lover, love of your life, they're there to be, to fulfill an experience.

DW: [23:40] We've agreed to come and help each other...

AB: [23:42] ...fulfill experiences.

DW: [23:43] It could be my angry wife, it could be my nice uncle... and so on.

AB: [23:47] ...crappy boss...

DW: [23:48] ...crappy boss, that's right, it's really gonna teach me. So as we move into this event and after that, will these people... reunite?

AB: [24:00] Yes.

DW: [24:01] And will they... and so, do they need to physically be in proximity to each other? like do I have to go...

AB: [24:07] Some will meet in dream-time... “oh my God, where have you been! I haven’t seen you forever”...

DW: [24:12] ...in dream-time, but not physical?

AB: [24:13] And then the dream will end and they’ll wake up and they’ll meet them the next day.

DW: [24:17] Oh. So they’re all gonna come together.

AB: [24:19] Correct.

DW: [24:20] So... I’m just gonna say this a couple times, because it seems important, that if there were 8 in my group and those people were at ages that still range that they were physically alive, whether they were 5 or 81... that we would come together eventually, in coexistence in our community like a drum circle or a school or...

AB: [24:39] Synchronicity would bring you together, and allow... the Earth will allow the separations of densities in soul families to function through synchronicity- unquestionable magic in front of you.

DW: [24:51] That’s exciting.

AB: [24:52] Yes. We’ve seen it here, at the event.

DW: [24:55] We have, and I guess I’m not trusting it.

AB: [24:57] Exactly. Until it happens to you 35 times in a week... at that point you can’t deny.

DW: [25:03] I guess it’s kind of like, the word “soul family” is used so loosely.

AB: [25:06] Exactly.

DW: [25:07] Like “twin flame”, you know after like, you know whatever, soul family... we’re all

family, right?

AB: [25:11] Mm-hm.

DW: [25:12] But to say that there are 8 beings that (have) done these incarnation things, and you would assume, well maybe they're my family or there's maybe one person in my family who's on that team.

AB: [25:20] Correct.

DW: [25:21] ...and coming together so we all consciously know that we are soul family and that we're now graduating?

AB: [25:27] Correct.

DW: [25:29] That... and we all know we're graduating, and then would we be helping each other?

AB: [25:34] Yes.

DW: [25:34] In that final step?

AB: [25:35] Yes.

DW: [25:36] And that would be making sure that we all created these dream realities?

AB: [25:40] For our ancestors... or for your ancestors.

DW: [25:43] What does that mean, for our ancestors?

AB: [25:45] If you decided to make a soul family lineage that would take on after you decided to leave.

DW: [25:52] Oh I see, in terms of the next phase.

AB: [25:53] Yeah.

DW: [25:55] Okay. Well, that's been 25 minutes.

AB: [25:58] Okay.

DW: [25:59] And we probably need to ponder that, I know I do (AB laughs) it's been just rich, very rich, thank you Andrew. I'm David Waterfall, and I'm with Andrew Bartzis, and we are talking about real things that affect you, the real people and about how we're gonna move forward in creating a new reality for Earth. So thank you.

AB: [26:17] Thank you.
