

Andrew Bartzis interviewed by Lance White, June 23 2013, part 12 of 20

LW: [00:38] Welcome back to our galactic history. This is part twelve. This is Lance White with Andrew Bartzis.

AB: [00:46] How you doin'.

LW: [00:46] Hi. Well, we've been talking about wars and events that are not expected in the predictive models, and I'm gonna throw a curve-ball at you, because I want to talk about some of the lone gunmen events and some of the things that have been going on that everybody's been speculating about, so I wanna put them to bed once and for all. Who killed President Kennedy?

AB: [1:10] (both laugh) I've gotten that curve-ball question, a few times.

LW: [1:12] All right, all right.

AB: [1:14] Honestly, Kennedy killed himself.

LW: [1:16] He did?

AB: [1:17] No, not literally. He was taken out by a gunman, but it was a multi-dimensional event.

LW: [1:23] Okay.

AB: [1:24] He would've made "the event" come in the 1960's and the 1970's. Even if he wasn't President, he would've held spiritual contracts that were opposite of the system of domination-and-control. So, his family lineage was collecting spiritual contracts to oppose the forces of domination-and-control. So when you have somebody collecting contracts to take your contract right away, what ends up happening to you when you're in the head of the office? You get taken out. Because their faction had made it all the way to the top.

LW: [1:57] Ah.

AB: [1:58] Faction is the key.

LW: [1:59] Okay.

AB: [2:01] So do you want to know exactly who killed Kennedy?

LW: [2:05] Well, if it's on the tip of your tongue...?

AB: [2:08] Well, exactly who killed Kennedy, is not the way it's written.

LW: [2:13] Okay...

AB: [2:14] Kennedy took a shot to the head, which was actually a multi-dimensional... brain popper.

LW: [2:21] Ah.

AB: [2:22] ...on-camera... meant as a fear event... staged, spun... done exactly the way they wanted to, and in operation of etheric satellites at the same time he's being shot, so everyone was psychically aware when he was shot.

LW: [2:38] Wow.

AB: [2:39] ...the whole world. And therefore the programming turned on, because it was a spun event.

LW: [2:44] Ah.

AB: [2:45] ...because his faction had... used its last chip.

LW: [2:50] ...so they were unable to go any further with...?

AB: [2:52] Correct... with freeing the world.

LW: [2:54] Yeah, and then at that point, it's a matter of...

AB: [2:56] Pow.

LW: [2:57] Yeah, and you know that's the only... so that's kind of where the forces of domination-and-control are being positioned now.

AB: [3:05] Correct.

LW: [3:06] They've backed themselves into a corner, and the only way out is...(AB nods) ...

yeah. Once you play your last chip...

AB: [3:14] You're done (both laugh) ...unless somebody loans you money.

LW: [3:18] Which- that's of course part of the game of domination-and-control.

AB: [3:21] Exactly.

LW: [3:22] Okay, what about John Lennon? ...now that I'm asking about people...

AB: [3:27] John Lennon learned how to transcend time while on music, while doing music... and it was the beginning of video recording and he began having beings show up in the video recordings... and if he was allowed to live, he would've influenced the millions into "revolution".

LW: [3:45] Oh yes! Most assuredly.

AB: [3:47] There you go ...and that's why he was taken out.

LW: [3:49] I heard that Yoko Ono was part of the illuminati.

AB: [3:52] Um, no. Just a free-will individual that has been abused.

LW: [3:56] I like her myself, I mean I've always felt that she's, you know... she has a...

AB: [4:03] There's a reason the two of them met, they were soul family that went back to the Lemurian age. They would've transmitted Lemurian singing technology.

LW: [4:12] Wow.

AB: [4:13] ...upgraded people's soul codes and DNA, just through singing.

LW: [4:16] Wow. And of course, he has children, Julian and I think a couple others, so it's not like the game is over for them... unless it...

AB: [4:24] Well... he was a special person, and chose to make his talent very special.

LW: [4:30] Yes. What about George Harrison?

AB: [4:35] He's a time-war... sufferer.

LW: [4:38] Really?

AB: [4:39] Time traveller, many times over. Um, many times super-soldiers program people, people in domination-and-control in the sexual abuse industry... they'll force people to watch... a certain band, or follow a certain band member, and that helps them when they're ripped out of one time-stream and put into another, and these old-guy bands are still around. They identify them, they go to those concerts, and then there's people always watching those concerts that can bring them back and shepherd them back in the system.

LW: [5:09] Oh.

AB: [5:09] So, it's stuff when you're working with musicians, this is integrated into the system to lure back people because it's easy to create an obsession through music, it gives you a positive benefit, and thus that lures you back into the loop.

LW: [5:22] Right. So I'm guessing that the Rolling Stones are somehow part of that.

AB: [5:27] Well... they are a part of it, but... ironic thing about the Rolling Stones is, they create a music that passes generations... when you listen to the original recordings of... "Sympathy for the Devil"? ... "You only get what you need"?... it's a totally (different) vibration than the modern recorded ones that are remastered with the new systems. It doesn't have the same 60's power behind it. Because that was recorded during that timeframe.

LW: [5:55] Oh, right. Um, what about the Jimmy Savile scandal that broke, not too terribly long ago?

AB: [6:02] Absolute proof that the sexual abuse ring runs to the highest levels of government and media.

LW: [6:07] Mm! yes... it's global.

AB: [6:11] ...and it's been around a very, very long time.

LW: [6:13] A very long time, and I hear that the Netherlands is a hotbed, a nest of... Queen Beatrix...

AB: [6:18] All throughout Europe, there are pockets of it, but that system of pockets of sexual child abuse and slavery, has been there for thousands of years also. There are entire

communities that, that's all that they do.

LW: [6:35] Right. And everything might look like...

AB: [6:39] ...normal.

LW: [6:39] ...tulips and roses and things but...

AB: [6:41] ...there's people locked in the basement.

LW: [6:43] Right... okay... um... so that brings me back to some of these other lone gunmen events, which I'm guessing are also multi-dimensional and time travel.

AB: [6:56] They are time travelers that are put into a future timeline, as I've been saying, it's all about 2011-2014. So all of these lone gunmen are secret pieces that have been played, unaware of any other faction, but no other faction was aware of it. So, example: Sandy Hook, the guy that we all see on camera, all drugged out? Well, that guy, that particular person, isn't the actual person that did the mission. He was created, and dominated and controlled, put there, and waited for his time travel activation code to go and do this event there. There was a team waiting there for him, to put another dark entity in him that could physically do the killing, and he went there with a team, got the kills in for him himself also, and the rest of the team did that, they extracted him, one of the team was injured, got scared, he wandered off, and then was taken over by the police, who had puppetry empties in them that became part of the team. Because they were free-will police and all of a sudden, something was inside them that made them do something different.

LW: [8:05] Wow.

AB: [8:06] The other people got away, he got blamed, he then is the ... contract-holder for all the fear spin that was done afterwards.

LW: [8:14] Ohhh, wow... so, that event didn't necessarily go off like it was planned.

AB: [8:20] No there's too many people that picked it apart.

LW: [8:22] Right.

AB: [8:24] Listen to the fact that they didn't take into understanding that there's thousands or hundreds of thousands of people worldwide that listen to police scanners. And there are

internet stations that just put the whole thing on. My radio station, freedomslips dot com- “revolution radio”, actually has an access to all police band broadcastings throughout the entire world available on their channel.

LW: [8:45] Nice.

AB: [8:47] And during the Boston event, all of those went dead silent. Everybody’s police scanners went silent.

LW: [8:52] And so that was part of the technology....?

AB: [8:54] Because they had figured out that people were listening to that.

LW: [8:58] Ahh.

AB: [9:01] They do things like this. Some of these events are planned to determine how much the Resistance of Free Earth is there and ready to react.

LW: [9:10] And to find out y’know, how... quickly, yes... and of course all the major...

AB: [9:16] And it allows them to test their data.

LW: [9:19] Right, so it could be no more unusual than a test balloon going up.

AB: [9:27] Correct.

LW: [9:28] Okay, and they do that on all the major media, like FaceBook and all the different...

AB: [9:34] Correct.

LW: [9:35] ...social media sites... and that’s all pretty much run by artificial intelligence?

AB: [9:39] ...and teams of remote influencers.

LW: [9:41] Okay, so Google and all the major...

AB: [9:44] Well, the actual people in Google- no, they’re separate, these are the franchises I spoke about in an earlier episode.

LW: [9:50] Right.

AB: [9:51] They have access to the raw data that is collected on us, from all the social networking/ data-mining sites. That information is then fed into an artificial intelligence that makes a massive computation, and makes a predictive model for each individual and then the whole in total and the remote influencers look at this data and process the data and then begin to target... lineages of people through the internet who have an ability to reach far.

LW: [10:18] Mm... but some events that have been predicted as being in the future have to be there, but they have a certain amount of...

AB: [10:27] ...wiggle space.

LW: [10:28] Right... to adjust, and make modulation controls.

AB: [10:33] Correct.

LW: [10:34] Okay, that makes sense. Uh... the Boston Marathon?

AB: [10:38] Ah, the Tsarnaev brothers. An absolute perfect example of sleeper cells that have been people that have been taken out of time, mind controlled, and given bomb and weapon training, brought back into time, with all the equipment that they needed, and storage lockers to hide it, and passes to be who they were for three years, because there was a clone living in the place when they took him out, outside of time, and when they put them back in, the clone that was holding space was given the dominant personality inside them, to keep their cover until they were both triggered to do the operation.

LW: [11:14] Wow... I'll have to listen to that again... that's a head-scratcher!

AB: [11:21] That's the way they do these cell-activations.

LW: [11:24] Right.

AB: [11:25] The guy in the Sikh temple (Aug 5, 2012)- exact same thing... Aurora (Jul 20, 2012)- same thing, except for the fact that it was designed literally to reach out to the whole world.

LW: [11:35] And did one of the fifteen of the families... one of the fifteen beings... trigger those things?

AB: [11:42] ...orchestrated it from the highest level, with its puppetry ability.

LW: [11:46] Okay... or several of them may have been privy to it?

AB: [11:51] No, Aurora was one particular being- the one that's in charge of North America.

LW: [11:55] Oh! Okay, so there are different sections that they're in charge of?

AB: [11:59] Yes, they've each got their own little...

LW: [12:01] ...dominion?

AB: [12:01] ...dominion.

LW: [12:03] Okay, and then they coordinate all that information.

AB: [12:05] Not always.

LW: [12:06] But...

AB: [12:07] They do coordinate-

LW: [12:07] -with reservations.

AB: [12:08] Yes.

LW: [12:09] Okay I got you.

AB: [12:10] There basically was an agreement to coordinate, basically up until the very end... 2011-2014. They would coordinate all the way until then.

LW: [12:18] So after 2014, the ability to coordinate... everybody's on their own?

AB: [12:23] Well, we're not in time anymore. We're not in disunity time... so it begins to dissolve their control.

LW: [12:33] Right.

AB: [12:34] Their control is based off of time, that's the fundamental axis.

LW: [12:36] Right, because of all the time wars and everything in the time, and that all stopped-

AB: [12:40] If our belief in time changes, all their time is a microscopic piece of dust compared to the expansion.

LW: [12:47] Right.

AB: [12:49] It's a pinprick.

LW: [12:50] That's right, and that just dissolves everything and changes the whole...

AB: [12:54] ...the whole paradigm.

LW: [12:55] Um... what about Fukushima?

AB: [12:58] Um... this is an example of when the faction that's in charge of Israel, and the faction that's in charge of the Middle East, which is two separate multi-dimensional beings... disagreed on how much they were going to put DNA off-world... how much they were gonna get rid of people. When they do a mass-die-off event like that, what they said, 22,000 were killed on the news? They're just taking those people and selling them.

LW: [13:27] Wow.

AB: [13:28] Okay? It has a fear event dimensionality to it also, so it serves all the purposes, but the Israeli faction triggered Fukushima to go off, and planned the spin afterwards with the American media, and the faction that was in charge of the Middle East didn't want that to happen, they wanted to keep it between Israel and Hezbollah... and all of a sudden Hezbollah was neutralized for many, many weeks. It wasn't in the news. The organization for Hezbollah was infiltrated by American "Resistance Free Earth" people ... and they needed to reassert power over that, that's why they wanted that event there. The Japanese people which are part of the Oriental faction, were never told that they were gonna do this event on them... so that caused a major reverberation against the Israeli forces and many of their controllers were eliminated.

LW: [14:28] Oh.

AB: [14:29] So, it was a fight between the two multi-dimensional beings, one who said "I need this fear event now, I need to milk as much energy out of the world that I can, and I don't care

what you think.”

LW: [14:39] Right.

AB: [14:41] That started the triad wars that we have now between the multi-dimensional beings.

LW: [14:46] Ah... now are they all at war with each other, pretty much?

AB: [14:51] Timeline war with each other.

LW: [14:53] Okay.

AB: [14:53] Manipulative war with each other... but at the same time, they’re all looking at the light forces that are out there. They’re surrounded. Each one is a “Hitler-in-a-bunker” right now.

LW: [15:02] Ah, that’s a good analogy. Whatever happened to Hitler, did he actually, wasn’t he pulled out of there?

AB: [15:11] There was a clone that was left there and burned.

LW: [15:13] Okay.

AB: [15:14] ...and he was brought to South America, and then to try to access Hollow Earth, where he was rejected... and then sent to the astral world for recyclement.

LW: [15:22] Ah okay.

AB: [15:23] Because he was a part of one of the multi-dimensional beings that was designed to be a lightning rod for karma, because that particular being needed to balance its own karma, so it put a evil piece really (far) forward, created the war, and part of the evolution factor of the rest of the beings... but he was able to take all the karma, because there would be 50 years of tv about World War 2 and how evil Hitler was, balance that being’s karma and allowed him to... be more in the game than he was before.

LW: [15:55] Mm, but if he was recycled at the end...?

AB: [15:58] -A piece. Just a piece... a sovereign piece. Remember, this is always a multi-dimensional game. They literally will sacrifice one piece to balance more karma.

LW: [16:11] Huh, interesting. Okay, now what about the BP oil spill?

AB: [16:18] Ooh, that's a good one! (both laugh) That is an example of extra-dimensional entities that are players in the game, but no match for the 15 beings here, and no match for the beings that are enforcing the quarantine... but they have enough technology and enough balls to try to break the quarantine. So they can create an event that wasn't expected by any of the predictive models, and they would be able to manifest their ships during that time to save the Gulf from being flooded with poisonous oil.

LW: [16:52] Hm... okay.

AB: [16:54] That faction is called the Jizzk-Sadaa, a species of people. They're a mix between... we'll describe it as... human form, six to seven feet tall, bone structure is essentially 10%-12% denser than ours, but they still look like us, so they'd have more pronounced boneage... sort of Neanderthal looking, but that's the improper word, there's just not a linguistics that describes it. But they have a more pronounced face, and their DNA lineage goes back to one of the original 72 first-species of Earth. And they do have a big soul family here, but they're a minor player, but they never chose to be a part of the 5,280 races defending us. They chose to be their own, egoic force... "hero to the rescue" force... and there are other species that are doing that also. There are many species that are on the mid-to-lower level or even in the upper level, like the Zetas, whose sole goal is to be the very first species to occupy dreamtime with a dreamtime city.

LW: [18:09] Oh.

AB: [18:10] So they could pull their people out first.

LW: [18:12] Oh.

AB: [18:13] So, there's a bit of ego on that level, because all these beings (that) have been trying to free Earth have been running their own program, separate than the master program (of) the main command ships that are here, so you have other operation in the light forces and the grey forces too.

LW: [18:29] And so in a sense, in relation to the larger forces, they're assisting, they're like rogues.

AB: [18:34] Yes.

LW: [18:35] Okay and, but they could be accounted for... but that all takes energy to account for

what everybody's doing.

AB: [18:44] Exactly.

LW: [18:44] In every timeline, and so on and so forth.

AB: [18:46] Exactly.

LW: [18:46] In fact, it's easier now with just the...

AB: [18:49] ...one timeline.

LW: [18:49] ...one timeline. So we should see an acceleration of... I mean technically...

AB: [18:56] I mean, the word "acceleration" has too many 3d matrix term of reference to it... it always happens when it happens, because the wavelength of total consciousness of Earth reaches a peak in the bell-curve... and then it goes down again, and then it peaks again, and goes down, and peaks again... and it happens on a peak. It doesn't ever happen on a down, it happens on a peak.

LW: [19:25] Okay um and we're in a...

AB: [19:28] ...a peak.

LW: [19:29] Yeah, definitely... because the super-full moon tonight, and then we started these interviews on the 21st, the solstice, the energy's definitely been... and on Mt Shasta, on top of it, so um...

AB: [19:45] ...to add a little more to what we were talking about... the predictive models think there's going to be 18 peaks this year.

LW: [19:55] Okay.

AB: [19:56] So, there are eighteen positions in which all of the individual factions have to make their moves... and many of their moves are going to be countered. So, what moves win, during those 18 peaks, determines the total value of consciousness for that year.

LW: [20:12] Oh, huh, interesting.

AB: [20:16] Because each one is divisive or multiplative of the consciousness... so if the forces of light win, they multiply consciousness, if the darkness wins, they deplete consciousness. The total vibration of all sentient life living right now here on Earth.

LW: [20:31] Okay, and according to what you're looking into, from the akashic records, uh would you say that there's going to be an expansion of consciousness in general?

AB: [20:44] We've had seven peaks so far.

LW: [20:46] Seven peaks, okay.

AB: [20:47] So there's eleven more peaks to go during the end of the year. So that means there's eleven more attempts at fear-porn-ing vs consciousness expansion.

LW: [20:57] And then plus you have the random wildcards now, that are popping up...

AB: [21:01] Which are people standing up and claiming their sovereign will and acting upon it.

LW: [21:05] ...and is the "One People's Trust" one of those things that was planted or seeded, to divert?

AB: [21:09] It was, just with any organization that rises it will ultimately be-

LW: [21:14] -taken over.

AB: [21:14] -attacked. Not necessarily taken over, attacked.

LW: [21:16] Oh okay.

AB: [21:17] Um, it's the first time anyone's ever foreclosed on the Fed with the... let's just call it... the actual internet age. It's been done 20 times before where people realized the Fed was fake and had no charter... the corporate system has no charter... our laws are corporate courts... all of our oath-and-bondage judges are under corporate bond which is not state oath bond given by the President of the United States, so none of our judges are actually really judges, they're just corporate people... they all sell bonds for every case.

LW: [21:53] Okay.

AB: [21:54] So if you go to court, there is your name, that has a bond with hundreds of

thousands of dollars that's attached to it, which is then traded on the open corporate networks. And actually traded on the stock market.

LW: [22:05] Wow.

AB: [22:06] And you can actually look it up.

LW: [22:08] Wow... and I have heard that when we're born, we're born with a...

AB: [22:14] You're born as livestock.

LW: [22:16] Yes... and then we're traded on...

AB: [22:18] You're born dead, actually.

LW: [22:20] Huh, and how does that work?

AB: [22:22] Well, this is how the American system works. As soon as you're born, there's a certificate of live birth and a birth certificate. The certificate of live birth is written in a way that you give away all your rights until you're seven, and you have to claim your rights back when you're seven, otherwise you remain permanently dead as livestock. Therefore they can do anything they want to you because they changed the actual definitions of that law for that law, and then other laws change the definitions to mean something else. And many many many laws do this. If people wanna look up the most screwed-up law, the one that allows Agenda 21, go look up HR-3474, the Riegle community development act of 1994.

LW: [23:03] Okay.

AB: [23:04] You will read on page 261-266 on the actual Library of Congress official pdf document actually where they repealed every banking law from the 1930s to 1994. And they repealed them in such a way that they changed the linguistics by 2,3, or 4 words, so that it meant something completely opposite of the original intention. And that is the document that is the rollout for Agenda 21.

LW: [23:36] Oh.

AB: [23:37] And I've done dozens of shows on it, dozens and dozens of shows.

LW: [23:42] Ah, interesting. So Agenda 21 is moving forward.

AB: [23:47] No, that's the law that got it to go forward, they made it legal.

LW: [23:51] Oh, okay.

AB: [23:52] That's the law that made it legal, as well as the banking scandal of 2008, they actually happen, made it legal.

LW: [23:58] Okay, so if the Fed has been... if we've gone through this so many times then what's happening is, it's just being altered in subtle ways so that it's reinstated.

AB: [24:12] Right.

LW: [24:12] Okay.

AB: [24:13] Remember, they're time-traveling, so they're writing laws that affect their time-traveling, that can be manipulated but just by changing... 35 words, in one paragraph of a 1,000-page law... and then they have ... 35 other laws that have riders inside them, that'll all be affected too, by the definition change.

LW: [24:36] And we don't have any access to the courts that are...

AB: [24:37] Correct. In fact, the system of law that we have today will never allow you to completely load all of the laws that are passed into a computer that can do a network analysis on it, because it will show that it's a multi-dimensional document.

LW: [24:52] Oh, right.

AB: [24:53] It has time-traveling concepts to it, and I challenge people out there to do it yourself- you out there.

LW: [25:01] Uh, so we're at the end of our segment for now, and um...

AB: [25:06] Episode 13 next!

LW: [25:08] Yes, stay tuned! (both laugh)
