

Andrew Bartzis interviewed by Lance White, June 23 2013, part 9 of 20

LW: [0:38] Welcome back. This is part nine of our galactic history. I'm Lance White with Andrew Bartzis.

AB: [0:45] Hey :)

LW: [0:46] Now, we were talking about the ascension process, and one of the things that you've been talking about is the importance of dream cities.

AB: [0:55] Correct.

LW: [0:56] And that's different from the air cities that Lemuria created? A dream city...

AB: [1:02] Sort of.

LW: [1:03] Okay.

AB: [1:04] The old Lemurian air cities will become our new dream cities, because an air city is a group of sentients that put their energy together- they un-manifest a body, put their energies together, and made a functional vessel reality-drive energy vehicle. And it can be anchored in the space in between air molecules in the North Pole, so there can be a tremendous amount of them there. The dream cities, specifically, are places that were created by ancestors in a specific spot of the sentience of Earth that says this DNA lineage, all of those members may dream into this realm, or dream into this realm. The air cities will exist in technically all of the dream realms, when you are ready to ascend to the highest layer of that realm, to meet the highest layer of your ancestors in that line.

LW: [1:59] Wow, so it could be a multi-dimensional process.

AB: [2:02] It is all multi-dimensional.

LW: [2:03] Okay.

AB: [2:04] Nothing is single-dimensional.

LW: [2:05] Right, so you could be in the 9th and the 5th and the...

AB: [2:11] The beginning is about connecting to your ancestors- physically, with our star

brothers and sisters...

LW: [2:15] Okay, good.

AB: [2:16] ...and then (in) dream time, the soul family versions of them, the ones you recognize from all the other lifetimes.

LW: [2:23] Okay, so when people are concerned there's a big movement for disclosure, the ascension process is the ultimate disclosure because you're actually moving back to your family, your soul family of origin, which is all the different galactic...

AB: [2:44] Correct, and the ones that are in in Hollow Earth that are our next-door neighbors.

LW: [2:51] Ah! Right, so-

AB: [2:53] And we'll have to meet the neighbors pretty quick.

LW: [2:55] Ah, yes! Now are there plasma beings below, too?

AB: [2:58] Oh yes.

LW: [3:00] Okay, and so they're probably numerous, they're sentient-

AB: [3:03] Numerous that we've not even begun to comprehend, yeah.

LW: [3:07] And are they all also independent of our...

AB: [3:10] There's many reflections inside Hollow Earth. There's dinosaurs in there, because they didn't die out, they just became an ancestor spirit for other animals.

LW: [3:19] Huh!

AB: [3:20] Okay? It all is reused and recycled.

LW: [3:24] So any species that's extinct is there, nothing really dies, everything lives.

AB: [3:31] Just put it on to a different dimension.

LW: [3:33] Okay, and so death is the same way.

AB: [3:37] Mm-hm, Correct.

LW: [3:37] It's just a transition from one dimension to another. Or, from a limitation of dimensions to unlimited (Andrew nods yes). Unless you're being recycled through the archonic grid,

AB: [3:50] And then you don't get all that other wonderful stuff, you just get put right back in.

LW: [3:54] And your memories erased on top of it.

AB: [3:56] Because that's the rules of our world.

LW: [3:58] Those are the rules of our world which was supposed to be free will and currently is-

AB: [4:03] It was supposed to be 100% free will, with no memories, so that was its intention.

LW: [4:09] And its become more like,

AB: [4:11] Virtually no free will.

LW: [4:13] And then very few memories.

AB: [4:15] Very few memories, if any.

LW: [4:17] And closing. (Andrew nods yes) And so the ultimate game for those who would play god, or who want to be the victors, would be total enslavement of the species, permanently, without the need for expending large amounts of energy on maintaining them.

AB: [4:37] Correct, because they can just take it from us.

LW: [4:39] Right, and so they're using our energy... do they get energy from source as well?

AB: [4:45] No.

LW: [4:47] So we are their source.

AB: [4:49] We are their source. On purpose. When they wanted to go after service-to-self ascension, these are the 15 multi-dimensional beings, when they decided they would do that,

they were a little mafia, and that little mafia agreed that “the big date” is here, way way way in the future, we’re way way over here... let’s work together for the first 12 million years. Then after that, it’s anyone’s game.

LW: [5:15] Okay.

AB: [5:16] They did, they agreed to work together for that long of a time, to set “this” up.

LW: [5:21] ...which is right now.

AB: [5:23] ...which is right now.

LW: [5:24] But if they are working to set it up they must be pretty certain they’ve won.

AB: [5:29] No, they mostly know (that) they know... (that) they’ve lost. But they have so many pieces-parts of themselves that have so much ego from being in domination-and-control, they’re not even perceiving they’ve lost yet. So essentially the hive mind that has given sovereign free will to be dominating species has lost its sovereign control over those sovereign entities.

LW: [5:51] Mm, plus then you have the rogue elements, and then you have each of the fifteen, having cards up their sleeves.

AB: [5:59] And then you put the walk-ins into them.

LW: [6:01] Oh yeah, right. So it’s anybody’s game.

AB: [6:05] Exactly.

LW: [6:05] Now, you said also that there is a council of twelve that oversees

AB: [6:09] Correct. Council of twelve energy beings. They’re the ones that sit on the spiritual courts of equity, to make sure soul families can’t resolve issues.

LW: [6:19] Okay, and since Earth has been removed from the process,

AB: [6:22] Blocked. By technology.

LW: [6:23] Blocked. Then the system has been taken over and corrupted ... and as you said, several of those members were kicked off,

AB: [6:37] -walked-in-

LW: [6:37] -and so currently, what's the status of the council of twelve?

AB: [6:42] Um, I can't actually tell you the number of the ones that are walk-in, it wouldn't be right, because nobody... there are people that know, and then there are people that shouldn't know.

LW: [6:53] Okay, gotcha! But it's in the process. The equity is being re-balanced.

AB: [6:56] Yes, a number of them have been replaced as well as their henchmen, minions, everything in their line.

LW: [7:05] And it seems like a good chess move would be to not let those that have been playing with you know that you-

AB: [7:11] Correct.

LW: [7:12] -that you've walked in, simply you're there, and you're still the same controller that they've always known.

AB: [7:17] And there's no difference because you hold all the contracts.

LW: [7:20] You hold the contracts and of course you pick up all the information and the memories and everything else, cellular and so on ... Do they have cells?

AB: [7:29] Yes.

LW: [7:30] Okay. So they have physicality of sorts? Or could have?

AB: [7:38] The main council of twelve doesn't actually have bodies, though they can use an octopus system to go into multiple entities to issue controls to the system.

LW: [7:51] Oh... so how do they...

AB: [7:55] They're puppets, they do puppetry... with people.

LW: [7:58] Oh, so they're not really necessarily looking out for the ascension process ... they're

just, it's all been, that part has been corrupted as well.

AB: [8:08] Correct.

LW: [8:09] Okay now who oversees the council of twelve?

AB: [8:12] No one... but the Prime Creator, with his final deadline. They had free will to do that until the deadline.

LW: [8:18] And the deadline is when?

AB: [8:20] Passed already, March 20th to the 22nd.

LW: [8:23] Okay.

AB: [8:24] Management re-shuffled. We had time-out, management re-shuffle, now after the 21st, time-on. Game's On.

LW: [8:31] Okay, so it's gonna be "gloves are off".

AB: [8:38] Fighting with themselves internally and externally, as people come out and start telling their truth.

LW: [8:44] Oh... and that's gonna be an interesting process, and that will definitely hit the news,

AB: [8:50] It will be a multi-dimensional game of whack-a-mole.

LW: [8:52] (laughs)

AB: [8:53] This one comes up, whack! This one comes up, whack! This one comes up, whack! ... fifteen come up, "oh, where do I hit first..."

LW: [9:00] Sounds like fun... so, we will see, in short order, within my lifetime for sure, the collapse of the control of the media?

AB: [9:11] Correct.

LW: [9:12] ...The control by the church?

AB: [9:15] The church will be spectacular.

LW: [9:17] Oh yes.

AB: [9:18] They hold a lot of cards. And think of it as a game of poker. You gotta show your... (moth flies between them) ... oop! we got a friendly moth coming through... it's a multi-dimensional moth...

LW: [9:30] (both laugh) It's blessing us, healing...

AB: [9:34] Think of it as a game of seven-card Texas hold-em poker, and everyone's gotta show their hands. There's a thousand people at the table, the first guy to show his hand, shows tens and jacks- pretty good, so the 999 other people out there, that are there have to show their cards too and beat that

LW: [9:55] Oh my god. And then once the first domino falls, it'll be like "V for Vendetta".

AB: [10:01] Correct.

LW: [10:02] What will precipitate that first domino falling?

AB: [10:10] Dreams first...

LW: [10:11] Okay dreams first.

AB: [10:13] Dreams at the kid level, dreams at the adult level, dreams at the senior citizen level, because they all have to be woken up differently.

LW: [10:21] Oh. right, right.

AB: [10:23] Senior citizen and a kid, big difference between the two.

LW: [10:26] That's right.

AB: [10:26] Plus the ages and vibrations they grew up in. So, as that first wave comes and the kids and the senior citizens suddenly see eye-to-eye, the adults are trying to look in two directions instead of one, you have a time for the separations of generations because our media has made us one amalgamation generation. So that's one of the first separation of densities. There will be elderly that realize they're a kid, they're a young spirit, they'll revert their age,

there'll be kids who realize they're much older, and will age very fast, and then there'll be the middle adults who determine if they're gonna be the new elders, or if they're going to try for the process to get out. So their choice is teaching or learning.

LW: [11:20] Wow and then so we'll all be service-to-all, or service-to-others.

AB: [11:24] Well, service-to-self will take on a whole new meaning. Healing yourself is healing the whole.

LW: [11:29] Right! ...but the whole element of only self-service is the part that will be...

AB: [11:37] Correct. the "selfish"-ness part of it. The consumerism, the monetaryism will all... have no purpose.

LW: [11:44] So that means also collapsing wall street and the banking system?

AB: [11:47] Well, collapse...

LW: [11:49] Transformation?

AB: [11:50] Let's say, let's look at collapse as the linguistics, because this is one of the tricky parts that I as the interpreter of the akashic record have to repeat into a linguistics, that's meant to limit you consciously, meant to limit you by intonation. When we say, because this is a buzzword, "the collapse of the financial system"... co-lapse is, for me, the intonation behind it is fear. But when you look at "collapse", there are other ways to use it, you can saying "collapsing a timeline", which is allowing to revert to normal. There's so much data behind the stock market system, even though it's completely rigged, there's always been a sentience in the up and down, and they use these predictive models based off of our DNA scans and the etheric satellites that are up there that can basically give you a computational model of what all of the sentience on a given section of a county or a state is, and then they can look at all of those and make a bar (graph) and a chart of all the consciousness changes that are going on each day as the sun goes around and around and around, and they can make a predictive model of how much sentience is growing or ascending.

LW: [13:02] And then make adjustments accordingly.

AB: [13:04] Correct.

LW: [13:04] And is a large part of that the artificial intelligence network?

AB: [13:08] Yes. It functions with the etheric satellites and then the artificial intelligence networks create cells that interpret the data at the human level, the human psychic interactor level.

LW: [13:18] And they can be faked out, right? The artificial intelligence.

AB: [13:20] Correct. Oh yeah.

LW: [13:21] It doesn't necessarily recognize irony or humor.

AB: [13:23] It runs programs to put you into fake realities.

LW: [13:29] Okay.

AB: [13:30] Which leads to the question you were asking, how do we know we're not going into a false-light reality?

LW: [13:35] Right! During this ascension process, how can we know?

AB: [13:38] You go to the North Pole, and you communicate with the entity of Earth. And you align your citizenship as a galactic citizen of Earth.

LW: [13:49] So that's where Santa Claus is (laughs) It actually, there is a Santa Claus.

AB: [13:53] There is a Santa Claus.

LW: [13:56] So we align ourselves with the sentience of Earth which some people like to call "Gaia Sophia".

AB: [14:02] Correct. It'll have a very motherly and fatherly feeling at the same time. And you'll meet it in your dream times, everyone will.

LW: [14:10] Okay.

AB: [14:11] And you'll have vision from it. Now, there'll be many in the religious scenarios that'll have a tough time adjusting to that, but that's their healing. Then there'll be others that don't want to connect to the sentience of Earth because there was another planetary sentience that is before Earth. Those are refugee souls. Refugee souls that are here that aren't going to accept

spiritual adoption, they'll have opportunities to finish what it is that they need, and then go through a local stargate on the surface, so their consciousness leaves and goes direct to the consciousness of the planet they're going to, and that's: the two planets form a court of equity and allow the two spirit families to inter-react, so that the one can get out of this reality and go to the other, without having to finish their contracts.

LW: [14:57] Oh. Now, are there gonna be those who simply want no part of any light or ascension process at all?

AB: [15:05] There will be those, because you know what? The light trapped them here, too. The light didn't make it easier. They made many mistakes, they became zealots.

LW: [15:15] Right.

AB: [15:17] They're the ones that didn't become zealots and were trying to keep the balance.

LW: [15:20] Right... so what happens to those people? Just a continuing-

AB: [15:25] They will get new lessons. Because once we grow, all those beings that came to help us here grow too. And there'll be parts of those societies that are growing that will leave behind other parts of itself.

LW: [15:39] Okay. So, some of the cards that will be put on the table at some point will be the...

AB: [15:46] Royal flush. (Lance laughs) Somebody will have the royal flush.

LW: [15:52] Right, and that will expose the royals, the vatican, the mafia, the government...

AB: [15:59] The king, the queen, the jack...

LW: [16:01] ...the black government...

AB: [16:02] And the ace.

LW: [16:03] And so... but we'll get to see these hands as they're revealed, and I guess in a sense that is kind of a sequential process.

AB: [16:12] Very sequential.

LW: [16:13] Because one literally has to be placed down.

AB: [16:16] In an information age.

LW: [16:18] Right, and so in a sense that's a linear...?

AB: [16:23] It's only linear for those that wanna watch it linear. Okay?

LW: [16:28] Okay, that makes sense.

AB: [16:29] There's others who just wanna know what the results are, they're not gonna be...

LW: [16:31] Right, just give me the final score. "Who won?"

AB: [16:34] ...so that's it, just gimme the stats, I'm gone.

LW: [16:37] I'm outta here!

AB: [16:39] Who's going back to be recycled and who's not...

LW: [16:42] Okay. And then how many players are there at this point, that are holding cards, would you guess-timate? That have a major stake in this outcome?

AB: [16:58] Do you want me to separate it into individual avatars or all the pieces-parts inter-functioning?

LW: [17:04] Do both.

AB: [17:06] If it's all of their pieces parts inter-functioning, about 65 million.

LW: [17:10] Okay.

AB: [17:11] If it's just down to the avatars, about 17 million.

LW: [17:15] Okay, so those are the ones-

AB: [17:17] -that would be removed.

LW: [17:18] Okay, good. And then they're removed to a court of...

AB: [17:24] Spiritual court of equity and they're seen by the Earth, the other galactics, the universes and galaxies, in council, as the equity court.

LW: [17:33] Okay, so there is "justice" at some point?

AB: [17:37] "Justice" being the human-limiting word because "justice is blind" - there's linguistics behind it - but, there will be equity.

LW: [17:44] Equity, right. And so all of the deeds of the errant kids-

AB: [17:48] -will be read into the akashic record,

LW: [17:50] and all sentient life will be able to-

AB: [17:54] -learn from that record,

LW: [17:55] and then, to make a decision as to what happens to those beings.

AB: [18:01] Mmm-hm.

LW: [18:02] And I think you pointed out earlier, that one option is the second death, which is...

AB: [18:08] -going back,

LW: [18:09] returning to-

AB: [18:09] -central sun.

LW: [18:10] Right and that just is a process of losing your memory, so they could technically get a dose of what they've been dishing out?

AB: [18:18] In another domination-and-control world, correct.

LW: [18:20] ... so they will come out under domination-and-control?

AB: [18:24] They will be a part of the system.

LW: [18:26] Huh.

AB: [18:28] Made into management. And then they will be given the choice to undo the management and give the world its freedom.

LW: [18:39] So...

AB: [18:40] They will go right back into what they were doing, with the choice to end it somewhere else.

LW: [18:45] Oh, so that's kind of...

AB: [18:48] So they would heal their karma, and that species.

LW: [18:53] Can they renege on that? Would that be one trick that could be pulled?

AB: [18:56] They wouldn't renege.

LW: [18:58] No?

AB: [18:58] No. Because, even if they renege, they got taken out once, what would stop them being taken out again.

LW: [19:03] Well right, what would be the point of delaying the inevitable.

AB: [19:06] Exactly. Once they got you, they got you. And if they're giving you a choice in a free-willed universe, make it. Make it or don't. Ego is gonna determine if they don't.

LW: [19:18] And then so those that don't are just basically recycled, okay. Good, I got that. And,

AB: [19:27] We'll have to forgive a lot of them.

LW: [19:29] And a lot will continue on, and because they're part of our soul family, and a lot will make the choice to heal and correct the mistakes that were...

AB: [19:39] Just because Uncle Mary or Uncle Bob was a bad brother doesn't mean that cousin Joe is.

LW: [19:45] Right. And that brings us to a couple of things that we have to be very careful about- judging others, but we also have to allow our anger and our judgement to occur.

AB: [19:59] Correct.

LW: [20:00] Because we have to be able to discern what is a corrupt influence, that is no longer useful to a healthy society.

AB: [20:07] Once the etheric satellites are taken out, we will really look back and realize how much psychic influence they had over our world. I told you about the predictive modeling. The etheric satellites give a whole new layer to the predictive modeling.

LW: [20:22] How to they work? And who put them there?

AB: [20:25] The control rooms operate etheric satellites, and that's the way the control rooms observe all the DNA level changes of society, of every being that's there, and all that is put into data, and that data can be searched for in different terms. If they're looking how a species is consciously advancing or learning about its body, they can individually locate in different areas of a county or look up the entire world as a single graph.

LW: [20:49] Right.

AB: [20:50] ...and when they see the entire world as a single graph, little things that they do can change the way the graph turns out. So with the use of the etheric satellites and with the use of the other instruments of the government arms.

LW: [21:02] So, the government is complicit in putting those things there.

AB: [21:05] It is just part of the machine, and it's complicit with the concept of the machine at the highest levels.

LW: [21:11] Okay.

AB: [21:12] ...though many in the congress in the senate don't know, but they've been mind-controlled to not care. Okay?

LW: [21:18] Right, that's pretty obvious.

AB: [21:22] Because they don't.

LW: [21:23] Right, they don't care, obviously.

AB: [21:26] And the ones that do privately care- this is your chance to make a difference. Put up or shut up. If not, get off our world.

LW: [21:34] So they're really being given an ultimatum too, because it's not business as usual.

AB: [21:38] Correct.

LW: [21:40] It's a time when conscience is really going to have to be allowed to manifest.

AB: [21:47] -and open as a blossom in the sun.

LW: [21:50] Yes. And those who want to bloom and blossom, will, and the others will...

AB: [21:57] ...go back to seed.

LW: [21:58] Yeah. That's kind of like that parable, the seeds being scattered and all that. Speaking of parables and things that came from ancient texts and bibles, according to Barbara Marciniak's channeled Pleiadian material, and others, the religions were all seeded here holographically, inserted like a hologram.

AB: [22:21] Correct. In ink.

LW: [22:22] Right. So, the ancient texts, the vedas and the bible.

AB: [22:31] They were all written by multi-dimensional beings who were leapfrogging through time, who had the predictive models that I just described. So when they wrote texts that were hyper-dimensional, multi-dimensional, holographic, the way it was inserted into this time-stream is fudging the numbers at those points to get those numbers that you wanted at the end. So, all of those books were meant to influence the people of this generation, and then this generation would interpret it this way and they predicted that, and this generation would make it this way for seven generations, and this one would change it and they had predictions of all of that, where you'll be able to keep the original source, where it says the Torah can only be translated this way. Chinese can only be translated this way.

LW: [23:11] Okay, are there original source documents that have not been tampered with?

AB: [23:16] Yes.

LW: [23:17] And where do those exist?

AB: [23:20] All over the secret societies, because those are the texts that they use to make the controllers the higher end ones.

LW: [23:25] Ah, and are the controllers involved with the control rooms?

AB: [23:29] Yes.

LW: [23:30] And there are how many control rooms?

AB: [23:32] Forty. But 21 of them have been found, 19 have not been found.

LW: [23:37] Ahhh... now do we know if those 19 are...

AB: [23:41] We talked about it in the episode about Lemuria. The Hollow Earth has access to the other 19. Those are the primary defensive systems and offensive systems of Earth and they made sure that those are never gotten into, the weapon systems.

LW: [23:54] Wonderful.

AB: [23:56] Weapons drive control.

LW: [23:57] Oh good. Not like there aren't enough weapons, etheric satellites, and so on and so forth. What kind of technology took out the twin towers?

AB: [24:12] It's a really good question. The twin towers happened because of many reasons. I don't really talk about this much, but I will because it's the right time to do it. The twin towers was twenty-seven layers of time-travel wars, all coinciding at the exact moment the first airplane was figured out that it was terrorists. And then at that time you had six local realities all intersecting on timeline manifestation. 5,200 races trying to counter it, and 15 multi-dimensional beings with 200 million parts of themselves in psychic influencing, all ascending at that exact point to try to create it, while you had millions trying to stop it.

LW: [24:59] Okay...

AB: [25:00] And it happened for two reasons. One, it broke several dozen timelines down, to being camouflage, because they showed their hand by making this destruction, and those several dozen timelines allowed them to shut down hundreds and thousands of others, to reduce

the big giant spider web weave of timelines that were fake timelines, down to a predictable model. So, they showed their hand by creating fear for ten years of energy.

LW: [25:30] Okay.

AB: [25:31] ...which gave the counter forces a greater predictive ability for what was happening next. Was 9/11 foreseen? It was, and it wasn't.

LW: [25:41] Right.

AB: [25:42] There were people that knew it was coming, and there were others that agreed it was coming but didn't really understand what it was going to be.

LW: [25:50] Right. So as I understand it from my own information, it was a multi-dimensional event that occurred, for instance, there may have been pyrotechnics involved, and there may have been some kind of...

AB: [26:07] Actually, everything happened. The twin towers basically existed on all of the timelines, and got attacked on all the timelines at the exact same time, and defended on all the timelines at the exact same time. And then when timelines began fading and fading and fading, and we get back to the center graduation timeline, which is the one that affects all the other ones, is what the sum result of what we have, is a hole in the ground.

LW: [26:31] Or...

AB: [26:33] Whatever the collapsed...

LW: [26:35] -timelines?

AB: [26:36] ...it was giving away how fake it is.

LW: [26:38] Right, now what was underneath? I saw that there was a duplicate of the twin towers underneath, and there was some kind of galactic civilization that's more advanced that actually planned it all out, outside of time, in a kind of artistic way they, I saw an actual television program that I saw on television, and it was a woman from some kind of advanced civilization and she was in a museum. And she was explaining how the twin towers were created and it was used to, as the breakup of duality was one of the messages, it was a wake-up call for humanity, and they crafted it, and in this museum were white, papier-mâché people turning in fear, they were all white, life-size, and they panned through, and there was an Asian man who

had helped with some of the graphics and then the people who incarnated for that experience were kept unaware until they were pulled out at the moment that the...

AB: [27:45] You're figuring it out. See, that's the dream-time of a post-event allowing those people who weren't ready to leave, to go back to that, that time, to fix it, so they can graduate in the future.

LW: [27:58] Ah... okay. It's kind of paradoxical.

AB: [28:07] It is a paradox, that's the thing. It was a designed paradox.

LW: [28:10] But it was done with love.

AB: [28:12] Well the thing is, the system has to respond to paradox.

LW: [28:15] Right.

AB: [28:16] They created the concept of a world-wide, on-camera fear event, and everyone said, okay you're gonna put on a world-wide fear event that's a paradox? Let's really up the ante, and put ten million people all time-traveling to try to stop it.

LW: [28:34] Wow! All-right, cool, and see what would happen.

AB: [28:37] Just roll the dice.

LW: [28:39] And what was the net effect of that?

AB: [28:41] Ten years of fear, and the truther movement.

LW: [28:44] And the truther movement, right.

AB: [28:45] One that never existed before.

LW: [28:47] Yes, Which is growing.

AB: [28:48] World-wide. In the internet age.

LW: [28:51] And of course for the controllers it was a further... win, pulling the gold out, manipulating, whatever it is...

AB: [29:01] I call it, instead of the short buggy whip, they got a long buggy whip.

LW: [29:05] Oh, okay.

AB: [29:06] But they're still in a buggy.

LW: [29:08] Okay, well, we're about at the end of this segment, which flew by, again! Like that little bug that was flying around, so we will return with part ten, and stay tuned!

AB: [29:24] Stay tuned :)
