

Andrew Bartzis interviewed by Lance White, June 23 2013, part 10 of 20

LW: [0:38] Welcome back! This is part nine [really ten] of our galactic history, I'm Lance White, with Andrew Bartzis.

AB: [0:44] How you doin :)

LW: [0:45] And we just left off, talking about 9/11, as a multi-dimensional event.

AB: [0:52] Mm-hm. Multi-dimensional time-war event.

LW: [0:56] So that brings up the question, with all these timeline wars that occurred 50+ million years ago, that we've been talking about through this whole series, how many, just for re-clarification, how many timelines currently exist?

AB: [1:16] One.

LW: [1:17] One!

AB: [1:18] One timeline, but our Earth has three timelines as its basic setup. The central graduation timeline was camouflaged, (and there) were over 300,000 timelines. The above timeline had no choice but to absorb some of the 300,000, and the below timeline had no choice but to absorb some of the 300,000. And it's kept creating more and more and more and more, until finally it was overloaded and it comes to the audit date, and in June 2011, they figured out how to unravel everything and figure out what is the central timeline, and once they did that they were able to eliminate all the excess timelines, except the above and below.

LW: [1:54] So they were able to do that without major trauma.

AB: [1:57] Correct.

LW: [1:58] ...other than 9/11, which was-

AB: [2:00] -necessary to happen.

LW: [2:02] It was necessary to happen, and as we talked about, that was created from higher levels than... beyond light and dark.

AB: [2:10] 9/11 was created by the dark entities, and when they showed that hand, all the light

entities had an infinite time to react because they're in time wars.

LW: [2:21] Ohhh...

AB: [2:23] So the event happens and everything reacts to it and does timeline travel to change it.

LW: [2:26] Right!

AB: [2:27] But what ultimately manifested is whoever had the royal flush, got it to win, but at the price of winning, took everything else out.

LW: [2:35] Right so that's what collapsed.

AB: [2:37] ...all of the timelines.

LW: [2:38] All of those. And so that was really a... served a much higher purpose.

AB: [2:44] Correct.

LW: [2:44] ...in the log run.

AB: [2:45] Correct.

LW: [2:45] In the short run, the players that are still managing this universe...?

AB: [2:50] They got their kegger party after all.

LW: [2:52] Yeah, and then in fact I heard, one person that I interviewed said that Bush had flown into some kind of jet location and when he got off all the bankers and everything were all cheering and had champagne glasses, and that was aired like, on television.

AB: [3:10] Mm-hm.

LW: [3:11] And... once, probably! I'm sure the person who aired that will never be speaking again. May you rest in peace. So, now we're back to a normal timeline, and as far as the dark control goes, what it appears to be is that they're ramping up, but-

AB: [3:33] I'll give you their strategy.

LW: [3:35] Okay. Let's hear it.

AB: [3:37] You have 15 multi-dimensional beings, with all their pieces-parts. Each one is a master hive controller of all the avatars. Each avatar has a mission in the system, to maintain control for their faction. You have... how do I put this... these fifteen vs. 5,280 exterior species, with a species that has amnesia and held hostage in-between. So whatever they choose to move, is not about us, it's about countering the influences of the groups coming in.

LW: [4:12] Mm-right. They have us already.

AB: [4:14] They have us already.

LW: [4:15] They've had us for a long time.

AB: [4:17] We're one of their aces.

LW: [4:20] Right.

AB: [4:20] Okay? So, the moves that they do dimensionally-wise, are to counter the influencing of the positive forces here. The positive forces are trying to enter dream-times, trying to get you to have positive dreams about galactic communication, free will, sovereignty, healing... they're encouraging those things, the good things that don't violate your free will when they're trying to give you the gift.

[4:47] The dark entities... how do I put this... will manipulate the ones the light entities are trying to fix. So it's a chess game with them, and at times they will put some players on a self-destructive path so the good guys will come out and try to stop it, will invest a whole group into here, example, like Syria.

LW: [5:13] Oh! Yes.

AB: [5:14] Why won't America invest into Syria? Well, the Russians are there, their drug money is there, their slavery money is there, you know, their black market money is there... they put all their eggs in that basket. That's a factions basket, that got exposed on media. And why won't America help it? Because that would help a rebellion that wasn't started by any of the factions... but ultimately got taken over by the factions because the media began to promote it as a war... because it had no choice.

[5:42] Example- the green revolution in Iran. It did more to create new consciousness in the

world than it did to free its people.

LW: [5:51] Mmm... how so?

AB: [5:54] Because it was something that wasn't in the graphs and charts that they predicted.

LW: [5:59] Okay.

AB: [5:59] It was a natural human event that occurred at the youth level to the adult level, in a dominated and controlled area. So the system's controllers there simply never saw it coming, ever.

LW: [6:13] Oh... so that's the blind spot... that can be, that neither side... none of the players are truly aware of. Maybe Prime Creator?

AB: [6:24] Correct. Or just the consciousness going through the waves. In the 60's you rejected some, 70's rejected some, 80's... we rejected some of their controls frequently and movements occurred, but the technology was to... take over movements, really fast. That's a lot of what their technology was about.

LW: [6:46] Yeah! Right.

AB: [6:47] Domination and control. So, they learned from the 60's because the marches there weren't supposed to- we could have been free in the sixties.

LW: [6:54] Right. And how did they wrap that one up? It seems like they brought in methamphetamine, cocaine, and all kinds of-

AB: [7:03] -Heroin.

LW: [7:04] Heroin, right.

AB: [7:04] Yep, and then prescription medicines.

LW: [7:07] Yes... oh! So, as part of the shift-

AB: [7:10] -and jails, was pretty big. They went from almost no one in jail to almost 12 million in jail.

LW: [7:15] Yes, and private jails. And then of course you have the jails without rendition.

AB: [7:19] Yup.

LW: [7:20] ...that are being built faster than you can say “jack-rabbit”. And then you got that whole thing about the super-soldiers and everything else and targeted individuals, so-

AB: [7:29] Correct.

LW: [7:31] And probably a lot more that we’re not even...

AB: [7:33] Well, I’ve put together a number of super-soldiers, you know put the humpty-dumpty back together. And there’s an actual system that, how do I put this... is the warranty unit for anyone that’s in the domination-and-control industry. They put a warranty on you and if you break down, they’ll fix you within that warranty. And if you don’t break down by the end of the warranty, they kick you to the curb so they don’t service you anymore. And that all runs through the Israeli programming units.

LW: [7:59] Huh.

AB: [8:00] Which are where all 15 factions come together, to share super-soldier resources, because they do take time to make them that way.

LW: [8:12] Run that by me again.

AB: [8:15] Okay (checks mic).

LW: [8:24] So the 15 get together in Israel-

AB: [8:27] There’s buildings in Israel that are ancient technology. They’re part of the control room functions that influence the grids of Earth. So they bring entities there, which are super-soldiers in training, and they mass-mind-program them so they can be put into timelines and ripped out of timelines, and they can still be in control, because it’s very detrimental to the soul to be ripped out of a timeline.

LW: [8:49] I would think.

AB: [8:49] And then with the type of mind control and domination that they do on them is very

predictable of how many pieces-parts you'll break into, in cell personalities, and then they'll program certain personalities to have reactions or dis-reactions or preventative wake-up reactions, and all of this is inserted in the person and then given a warranty.

LW: [9:09] A warranty!

AB: [9:10] An actual warranty.

LW: [9:11] Wow... and so what happens if they break down?

AB: [9:16] If they break down, the warranty-ing agent, the programmers, will fix whatever broke down, and they're responsible for all the money and energy for it.

LW: [9:25] Right, because this isn't a cheap event!

AB: [9:27] Correct.

LW: [9:27] These things actually cost energy, money, whatever...

AB: [9:29] Correct.

LW: [9:30] ... the trade technology and the rest of it. Uh, or they can also kick you to the curb?

AB: [9:36] And that's what's happening, and why all these super-soldiers are coming out. Bill Brockbrader, classic example. His warranty broke down while he was still in service, talking about tomahawk missile double-strikes in the 1990s. Okay?

LW: [9:51] And he's still in jail

AB: [9:53] He's in jail now, on trumped-up charges.

LW: [9:55] On trumped-up charges, and in fact-

AB: [9:58] He was given the shaft.

LW: [9:59] He was given the shaft, and they have also been doing/exerting mind-control and using chemicals and the rest of it on him as well.

AB: [10:08] Well he's... they're not mind-controlling him like that, because he's integrated into

the timeline, and if they take him out, the timeline falls apart for them. He's part of their predictive modeling, because they predicted him in the future.

LW: [10:23] Ah, so it's guaranteed that he has to be alive.

AB: [10:26] Yes.

LW: [10:28] But they can't...

AB: [10:28] ...and un-mind-controlled, in a free-will state.

LW: [10:31] Oh, interesting.

AB: [10:33] But he's got (other) programming he has to defeat on his own.

LW: [10:36] Wow. Now how many of these people, that you are aware of, are being held, that have stepped out of line?

AB: [10:45] I can list/name, Duncan O'Finioan, Miranda O'Finioan [Kelley], Dave Corso, [James] Casbolt... all of those guys that are in the super-soldier thing, their warranty broke down and they were kicked to the curb, and eventually they put themselves back enough together, and got angry enough, and went on air and talked about it.

LW: [11:03] So really what's important is, when somebody starts to awaken to what's been going on and what's happened to them, it's important to not to repress the anger and do all the love and forgiveness thing right away, it's important to get your information out there.

AB: [11:17] Right.

LW: [11:18] Because otherwise no one else knows about it.

AB: [11:20] Exactly.

LW: [11:21] And we're all operating on a blind as you know, with white canes, because we have amnesia, you know we're not really connected that well.

AB: [11:29] Exactly.

LW: [11:30] Yeah. So this is part of the coming out process that you're talking about, that there

will be information that will hit, that will just be like waves of information. At about every level.

AB: [11:44] Every level. But the thing is, how do these waves... I liken it to a hurricane. Okay? Both sides predict an incoming hurricane. And one model says it'll hit Florida and another model says it'll hit New York. And then you have 200,000 other people all making their own models saying it's right. No one knows!

LW: [12:05] Okay.

AB: [12:06] No one knows.

LW: [12:07] Okay, so that's kind of like HAARP... and weather control... The Fukushima event obviously-

AB: [12:13] Yes, but at the same time... the event is already done.

LW: [12:16] Right! And no one can mess with the timeline, to alter it now. So now it seems as if each hand is gonna have to be really... well they're kind of stymied!

AB: [12:29] It's the highest dimensions' chess move, final chess move.

LW: [12:34] Right! because it played through all the repetitious games which can be played at every level...

AB: [12:39] Correct.

LW: [12:40] ...right up to the final hand.

AB: [12:41] Right. But the final hand is going to be... the way I describe 9/11, where everything comes together to try to counteract it? It'll be like that but on a dream-time level. The last powers of the sacred geometry cities that control our dream-time, will battle against the unity-consciousness dream-time, together, and the dis-unity dream reality will fail, and its energy will be absorbed by the dream reality, thus the controllers have lost all their power.

[13:12] But we are the ones that have to pick up the pieces and understand what that all means, share the user manual to the human skin-suit, begin to train healers, allow our galactic brothers in, still deal with dream-time and still understand the fact that there's a planetary sentience that's waking up underneath our feet and wants to talk to us. Then we have neighbors in our solar system that are gonna be knocking on the door, asking for a cup of sugar.

LW: [13:35] And from underneath in the Hollow Earth, and the various dimensions?

AB: [13:38] Exactly, all of them.

LW: [13:38] Okay. And that will all happen...?

AB: [13:42] ...on a soul family level. That will be the separation of densities, and that will be how these migrations work.

LW: [13:48] And that will occur also on dream-time, but also in 3D time as well...?

AB: [13:53] 3D time will end.

LW: [13:54] Okay.

AB: [13:54] Eventually. It'll sputter along... put a stopwatch here (mimics stopwatch)... the stops, here and there.

LW: [14:01] So is it fair to say that things will begin to get very strange for a while?

AB: [14:05] Yes, and there will be other time-outs.

LW: [14:08] Oh, okay.

AB: [14:09] But time-outs in a different way.

LW: [14:11] How so?

AB: [14:12] Let's think of the way an American football game works. You're down to three minutes, the game's tied, you know there's a two-minute warning coming, you both got three time-outs left... that means in American football time, that could go 1 hour 25 minutes, easily.

LW: [14:27] Oh!

AB: [14:29] (That's) where we're at now. So, the forces of dark realize they've already lost, and they're gonna do whatever they can do to save their own butts, to not be in the choice of galactic recylement, they're gonna check their own ego in some way, shape, or form. The ones that don't care will run the program to the end and be removed.

LW: [14:48] Right.

AB: [14:48] The light forces that are in zealot nature, that are battling the other ones that are in ego, will also have sets of time-outs, and will be given choices to figure out what they're going to do.

LW: [14:58] Because they're also out-of-control!

AB: [14:59] Out-of-control, in a contractual form.

LW: [15:01] Yeah.

AB: [15:02] Then the people like us, that are like me or like you, that are just here to be a part of Resistance-Free-Earth and we don't care about their political propagandas, are going to exude unity consciousness in a neutral way, and that will outweigh polarity. So there will be unity consciousness that accepts both polarities, but only allows you to perceive it as the neutral when you put it into your cellular memory, and there's light-polarity that's only gonna allow in the light beliefs, and dark polarity only allowing in the dark beliefs. So, all three of those will have to figure out how to work together.

LW: [15:36] Right... and whatever is unable to work into the new equation,

AB: [15:42] (mimics ejection)

LW: [15:43] Yeah, they're gone.

AB: [15:45] They're gone.

LW: [15:45] And we don't have to worry about any kind of-

AB: [15:47] We'll be in control of the control rooms, raising the density and vibration of the planet, and those entities that can't go through the incremental increasing of energy on the grid, won't be able to live here.

LW: [15:59] Right.

AB: [15:59] And that includes some of the galactic brothers and sisters that are here right now. They literally won't be able to live here because they haven't raised their vibration, and not

enough of us have left to help them in their graduation process.

LW: [16:11] So once we graduate, we'll be able to assist...

AB: [16:16] ...by exchanging soul codes. So it finishes their process on their world.

LW: [16:21] But that's done from a multi-dimensional level, and in their dream-time.

AB: [16:26] Um, there will be us that physically go there, and the physical meeting will create healing that will spread inside that culture, and as that meeting spreads, they will have complete soul codes and they being their ascension process. Or if they've already done it and they're just missing the last piece, and stuck, they get their party.

LW: [16:46] Okay, and we have our own soul codes to complete.

AB: [16:49] Yep.

LW: [16:50] What you call the vaccination which has to do with not carrying a virus-

AB: [16:54] -out into the galaxy...

LW: [16:54] -from our realm...which has been implanted in us, into other galaxies and killing trillions of people.

AB: [17:01] -which has happened many times.

LW: [17:02] ...which has happened many times! And that has to do with the piracy of genetics and soul codes and the rest of it.

AB: [17:09] And certain DNA-based virus lineages from low-vibration worlds turned into weapons.

LW: [17:17] Oh, right! That's right, so, humans... like a human bomb.

AB: [17:22] Correct. Plague carriers.

LW: [17:23] So when we see- plague carriers, right yes that would be a very tricky thing to do,

AB: [17:30] There were actually versions of us that were made to be that. And they're hidden

amongst the DNA. That was an actual thing that was built-in so if another light race was going to invade here with physical troops on the ground, and re-conquer the local realities and bring them back up, they would have to deal with the fact that, no matter how you scan the DNA, one out of every 1,000 was a plague carrier.

LW: [17:56] Ah, is that one of the reasons for inventing HIV and AIDS?

AB: [18:01] No, that was to eliminate specific soul family members, actually.

LW: [18:06] Okay which ones?

AB: [18:07] Anyone that's in a high-powered, high-energy soul family status, like... you have enough relations to other people that the disease will look for people that have a large volume of soul family, that was missed by the detection system.

LW: [18:23] Oh. Well I must have a huge soul family because I've had HIV for 31 years, and I'm still alive. I've had AIDS for 8 or 9, y'know.

AB: [18:33] You're still alive.

LW: [18:34] And I'm healthier than I've ever been, so that breaks a few rules right there.

AB: [18:40] Mm-hm. You healed yourself.

LW: [18:41] Well technically, I still have to use the pharmaceuticals.

AB: [18:45] Right.

LW: [18:46] But there will be a point at which that will just dissolve... The illusion-

AB: [18:50] The illusion will dissolve.

LW: [18:52] Yes and so that... everything that we perceive as part of the holographic reality that's controlling us is really an illusion, in the sense that it's been created to... it's like "The Matrix". In other words, is what I'm trying to say. It's a ... we're plugged into the matrix.

AB: [19:12] We are plugged into the matrix, yes.

LW: [19:14] And then some of us are working in the underground.

AB: [19:18] And some of us are working in the underground of the underground.

LW: [19:21] of the underground, right, and there might be-

AB: [19:24] Because even the underground is an illusion at times.

LW: [19:27] Oh, right!

AB: [19:28] Because the underground is Hollow Earth.

LW: [19:29] -still duality and polarity.

AB: [19:32] Right.

LW: [19:33] Because there can't be an under and over (both laugh).

AB: [19:37] You get it now.

LW: [19:39] There only is.

AB: [19:40] There only is.

LW: [19:41] Right. So this has already happened.

AB: [19:45] But, because it's already happened, it still has to finish. Because of all the timeline wars means, it has to finish.

LW: [19:51] And we still have to sit here and go through the motions of talking and carrying on this conversation, as if we've never done it before.

AB: [19:59] Yes, but at the same time it's our free will to stop it. See? That's the crazy part about being a free-will planet.

LW: [20:06] Oh, okay. You mean to stop the conversation?

AB: [20:10] No, to stop "the event".

LW: [20:13] Oh! Now, the event is not something we want to stop, is it? (Andrew shakes head

no) Hell, no.

AB: [20:19] The asleep people want to stop it, though, because they're in domination-and-control.

LW: [20:21] Right!

AB: [20:22] Their tacit consent being taken.

LW: [20:24] Right, and so you have a huge...

AB: [20:26] Manifesting, co-creating beings, we can manifest our own destruction or our own healing. And some will manifest personal destruction in their own dream-world, until they're ready to come out, and there'll be those of us who parachute into these worlds and try to heal them and lure them out. And a big portion of our society, that will be their job.

LW: [20:44] Yeah.

AB: [20:46] And many of the controllers will have to use their skills for good, to help people out of that, that will be their restitution.

LW: [20:54] Right, that makes perfect sense.

AB: [20:56] Because they understand what put them in there, and they can understand what gets them out.

LW: [20:59] -gets them out, the fastest, so it will be logical to get those people that have, yeah, exactly. So that would entail the use of all the control rooms.

AB: [21:14] Correct, which would raise the vibration of Earth and the grid, you'd be able to see the grid on a line in the sky.

LW: [21:19] Right! So some of us will be looking and we'll all of a sudden see things that weren't there before!

AB: [21:24] They will see auras. Correct.

LW: [21:26] And you mention the Aurora Borealis in-

AB: [21:29] -the North Pole. That's where the dream-time societies reside, live.

LW: [21:34] Okay, now they're there now, right?

AB: [21:36] They've always been there.

LW: [21:37] Okay, those are the indigenous, and...

AB: [21:39] The ancestral family lineage homes.

LW: [21:41] Okay, all 72.

AB: [21:44] Well there's more. There's 2,200 separate soul families, 2,300 separate alien races that have all come here to input their DNA.

LW: [21:53] Oh okay. And they're all basically stuck as well, until we graduate. Or not?

AB: [22:01] No, not everyone is stuck. Certain parts of their migration patterns are stuck, because other parts (of a soul family) have their soul codes but (that) doesn't complete the soul codes of another soul family (member), so-

LW: [22:14] It's all inter-related.

AB: [22:15] It's all inter-related. Yes.

LW: [22:17] Right, so in other words, it's the butterfly effect.

AB: [22:21] Exactly.

LW: [22:21] Yeah. Okay. Interesting. Huh. (both laugh)

AB: [22:27] Things that make you go "huh".

LW: [22:29] Yeah! Things that make you go "huh" in the night. Okay! Um... well, it looks like we're reaching the end of our-

AB: [22:39] Another multi-dimensional 25-minute second.

LW: [22:41] And I was just gonna ask you about the Nazca Lines and some of these other things

and uh the historical... We will get into those topics that we were dreaming up... when we return, for part eleven...?

AB: [22:58] Okay.

LW: [22:59] ...I believe? Yes, that's right.

AB: [23:01] Part Eleven.

LW: [23:02] Okay! All-right. Break time.

23:04
